

# MONTCHAVIN LA PLAGNE

With its 'Famille Plus' label, Montchavin la Plagne is perfect for families looking for charm and ease. The traditional village, convivial atmosphere and strategic geographical position make this the perfect place for families! Les Coches, the upper part of the village built more recently, is in keeping with Montchavin's traditional construction whilst offering accommodation that meets holidaymakers' requirements.

## WE LOVE

- / **The typical village** with its paved streets, stone houses, wooden chalets and farms... the charm certainly works! You can often hear cow bells from the chairlift and smell hay as you wander along a snow-covered street.
- / **The Famille Plus label** that guarantees top service for the whole family. The Cacahuète Club, for example, takes babies from 6 months; there are child-friendly activities & events every day; you can rent baby equipment on site... So parents really feel like they are on holiday too!
- / **Its strategic geographic location**, right in the centre of Paradiski® with the Vanoise Express just next to the village. Direct access to the 425 km of runs whilst enjoying all the advantages of a village and the abundant forest vegetation.

## TO DO AND SEE

- / **Espace Paradisio**, a 1000m<sup>2</sup> aquatic and wellness centre at the top of Montchavin. Aqua-biking or treatments, you can choose your preferred way to relax. Kids will love the outdoor pool in the summer.
- / **Telemark**, with your heels and spirit free! The sport that combines strength and elegance is historically linked to Montchavin la Plagne. Many international competitions take place there, so why not try a lesson and test your balance on skis?
- / **The places to stay up on the slopes**, what could be more authentic? Le Sauget and Le Friolin welcome holidaymakers looking for a more real experience. Enjoy a hot chocolate by the fire after a great day's skiing, a cosy night and a stunning sunrise.

## IN FIGURES

- / 1250 m altitude
- / 10 000 beds
- / Linked in 1973
